

DOGS

WELLNESS PLANS

MATURE ADULTS: 7 - 10 YEARS

Let's keep our dogs active for longer. At this life stage, we will focus on weight management, joint health, oral health, and keeping our dogs safe outdoors by preventing parasites and infectious disease. We will also begin performing age-appropriate blood testing to screen for early diseases.

Our plan includes:

- Annual exam
- Core & elective vaccines
- Basic oral deworming (x1)
- One free drop-off visit
- KeyScreen PCR fecal testing (x1)
- Accuplex (heartworm & tick-borne disease screen) (x1)
- Wellness blood work (x1), including CBC, mini chemistry
- Fear Free medication
- Six months of Nexgard Spectra (parasite prevention)
- Limited time offer: 1 free bag of a veterinary diet

Upfront yearly fee:
\$150+HST

Monthly fee:
2 - 3.7 kg | **\$43.17+HST**
3.8 - 7.5 kg | **\$43.43+HST**
7.6 - 15 kg | **\$46.26+HST**
15.1 - 30 kg | **\$48.78+HST**
30.1 - 60 kg | **\$49.38+HST**

DOGS

WELLNESS PLANS

MATURE ADULTS: 7 - 10 YEARS

Mature Adults

Annual exam

- At this life stage, we will focus on early detection of disease, oral health, weight management, and joint health. Many dogs begin to show signs of degenerative joint disease at this time. We will also discuss parasite and infectious disease prevention so your dog can stay safe while being active outdoors!

Core & elective vaccines

- Core vaccines: DA2PP & rabies
- Elective vaccines: Bordetella (kennel cough) & leptospirosis
- The above vaccines are included, but we will discuss a specific plan and schedule based on your individual pet's life style and risk factors.

Basic oral dewormer

- One dose of Strongid-T (pyrantel pamoate) with annual exam.

Accuplex (heartworm & tick-borne disease testing)

- Blood test to check for heartworm (transmitted by mosquitos), Lyme disease, Ehrlichia, and Anaplasma (transmitted by ticks)
- One (1) test included.

KeyScreen PCR fecal testing

- Screens for 20 intestinal parasites, including parasites that can be transmitted to people.
- Many parasites, like giardia, are microorganisms that are not visible to the naked eye.
- One (1) test included.

DOGS

WELLNESS PLANS

MATURE ADULTS: 7 - 10 YEARS

Mature Adults

Blood work

- Age-appropriate blood testing is included in this panel. This helps us screen for kidney or liver issues, making it easier for us to intervene earlier. It also provides us with useful baseline data that we can compare to in the future!
- The included blood work panel (ONE / 1 per year) includes:
 - A **biochemistry screen** that looks at kidney values, liver enzymes, protein levels, blood sugar, and electrolytes (sodium and potassium).
 - A **complete blood count (CBC)** to check for anemia or changes in white blood cell or platelet counts.
- If abnormalities are noted and follow-up testing or treatment is required, **additional tests and treatments are not included in the plan.**
- **Not all diseases can be found with blood work.**

Fear Free medication

- Every effort is made to keep each encounter with all pets a positive and fun experience! However, **some pets may feel stressed and anxious despite our best efforts.**
- One refill of Fear Free medication (ex. trazodone or gabapentin) is **included with all exams** for pets on wellness plans, for stress-free vet visits and medical care. This makes taking blood samples much less stressful too.

DOGS

WELLNESS PLANS

MATURE ADULTS: 7 - 10 YEARS

Free drop-off exam

Mature Adults

- Worried your dog is unwell? **ONE (1)** free drop-off exam is included.
- Please **call us first** to arrange a time for drop-off, to minimize the time your pet spends waiting to be seen.
- A team member will speak with you to gather more information about your concerns, and then a veterinarian will examine your pet and call you to discuss the next steps. You must be easily reachable by phone.
- The exam fee is included but if any medications or diagnostics are needed, they will cost extra.

Six months of Nexgard Spectra

- We recommend that dogs in Ontario are given a monthly heartworm, intestinal parasite, flea, and tick preventative medication from **June to November**.
- **Six months of Nexgard Spectra**, an all-in-one oral preventative medication, is included in this package. The monthly fee associated with this package varies **depending on the size of the pet** and what dose of medication they require.
- Additional **tick prevention** is strongly recommended when the temperature is above freezing, and is available at an **additional cost (no dispensing fee for wellness plan members)**.

Free bag of a veterinary diet tailored to your pet's needs

- Our wellness plans include one free bag of a veterinary diet, picked based on your pet's life style or specific medical needs.
- **Limited time only** and exclusive to new plan members in 2024 and 2025. Given at time of annual exam.
